**One-stop Solutions for  
*Interior and Exterior Decor***

# COMPANY PROFILE

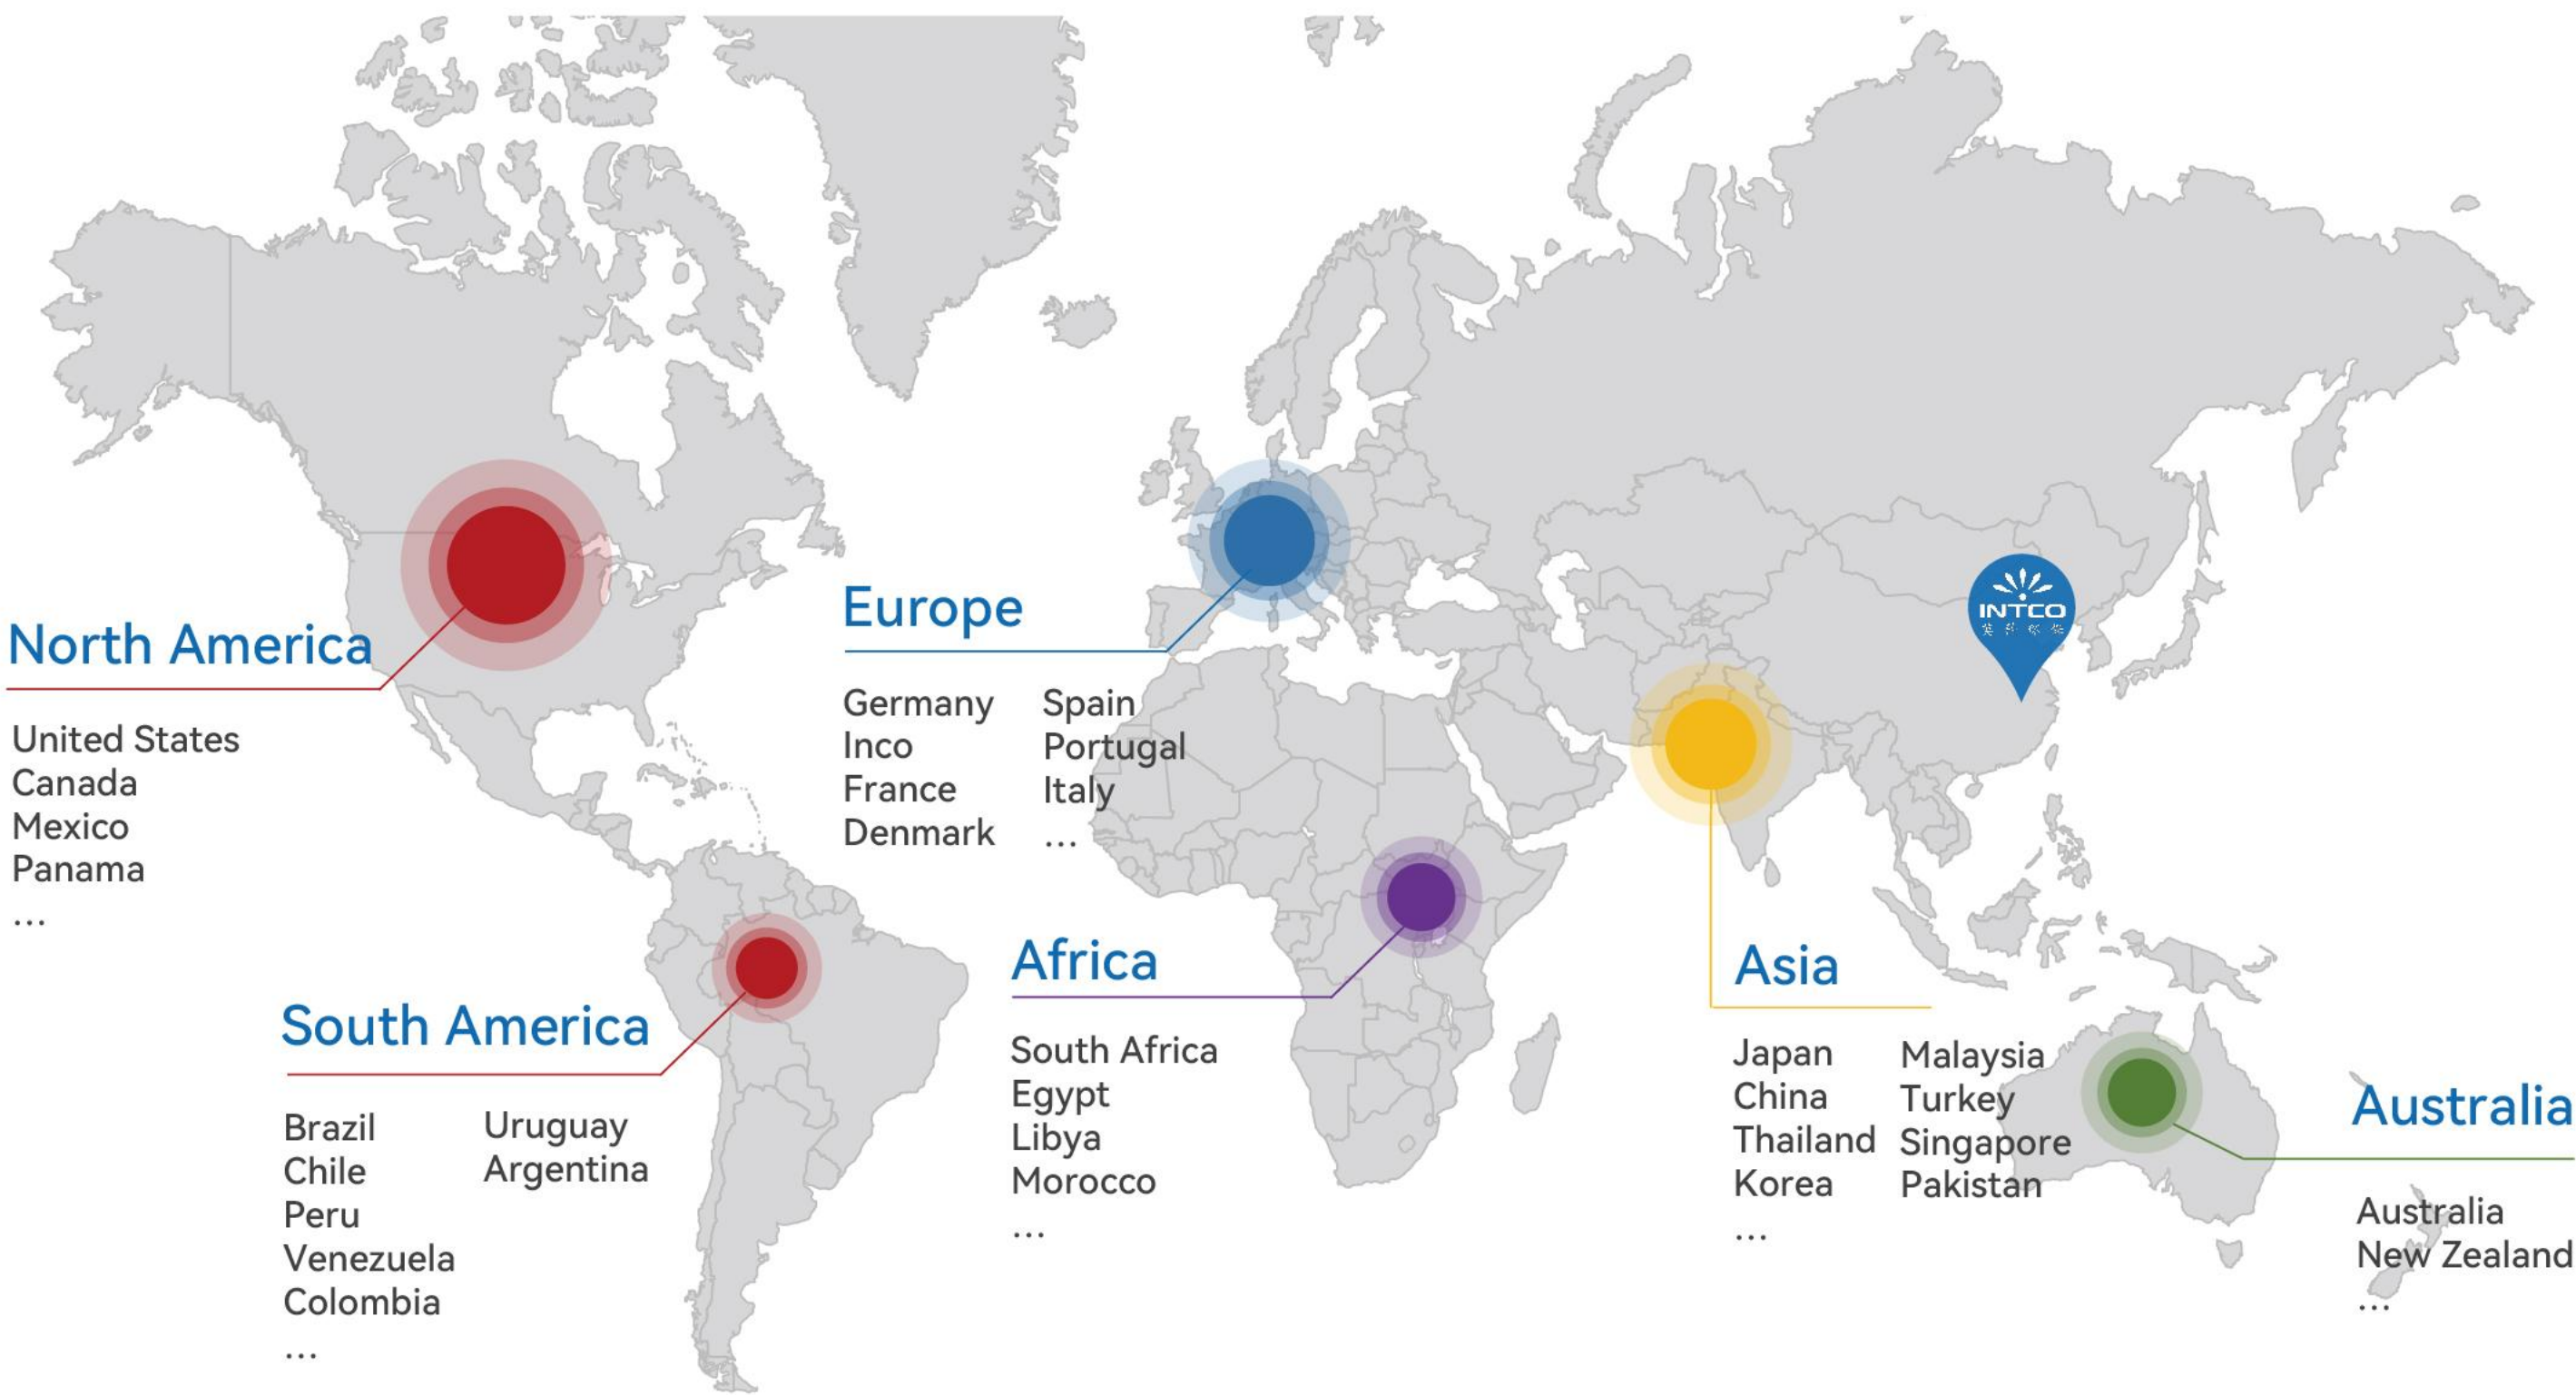

Intco Decor is a brand under Intco Recycling (Stock Symbol: 688087), a high-tech manufacturing company headquartered in Zibo, Shandong Province. Founded in 2002, Intco Recycling specializes in plastic recycling and is committed to leveraging advanced recycling and production technologies to build a circular economy model for reusing high-quality plastics. As a leader in plastic sustainability, we were among the first in the industry to pass the ISO9001 quality management system, ISO14000 environmental management system, and obtain European CE certification.

Intco Decor offers a one-stop solution for interior and exterior decor. Our product portfolio includes wall panels, wall mouldings and outdoor products. We have six production bases located in Shandong, Shanghai, Anhui, Jiangsu, Malaysia, and Vietnam. With exports to over 120 countries and more than 12,000 global customers, Intco Decor proudly stands at the forefront of the decorative materials industry, providing multi-material and multifunctional recycled products.

Driven by proactive innovation, we continue to advance plastic recycling technology, striving to become a global leader in resource recycling and contribute to sustainable development in the evolving global carbon economy.

Intco Recycling, Renewing the World.

120+ Countries | 12000+ Clients

# Why Choose WPC Wall Panels ?

Intco WPC wall panels combine the beauty of wood with the durability of plastic, offering excellent water resistance, moisture-proof, UV protection, and eco-friendly properties. Perfect for both indoor and outdoor use, with a variety of textures and colors to enhance any design.

## FIRE PROOF

Intco WPC wall panels use fire-resistant technology to effectively prevent flame spread, enhancing safety.

## FORMALDEHYDE FREE

Made with formaldehyde-free materials, ensuring fresh and healthy indoor air quality.

## WATER PROOF

Intco WPC wall panels provide excellent water resistance, effectively preventing moisture penetration and keeping walls dry.

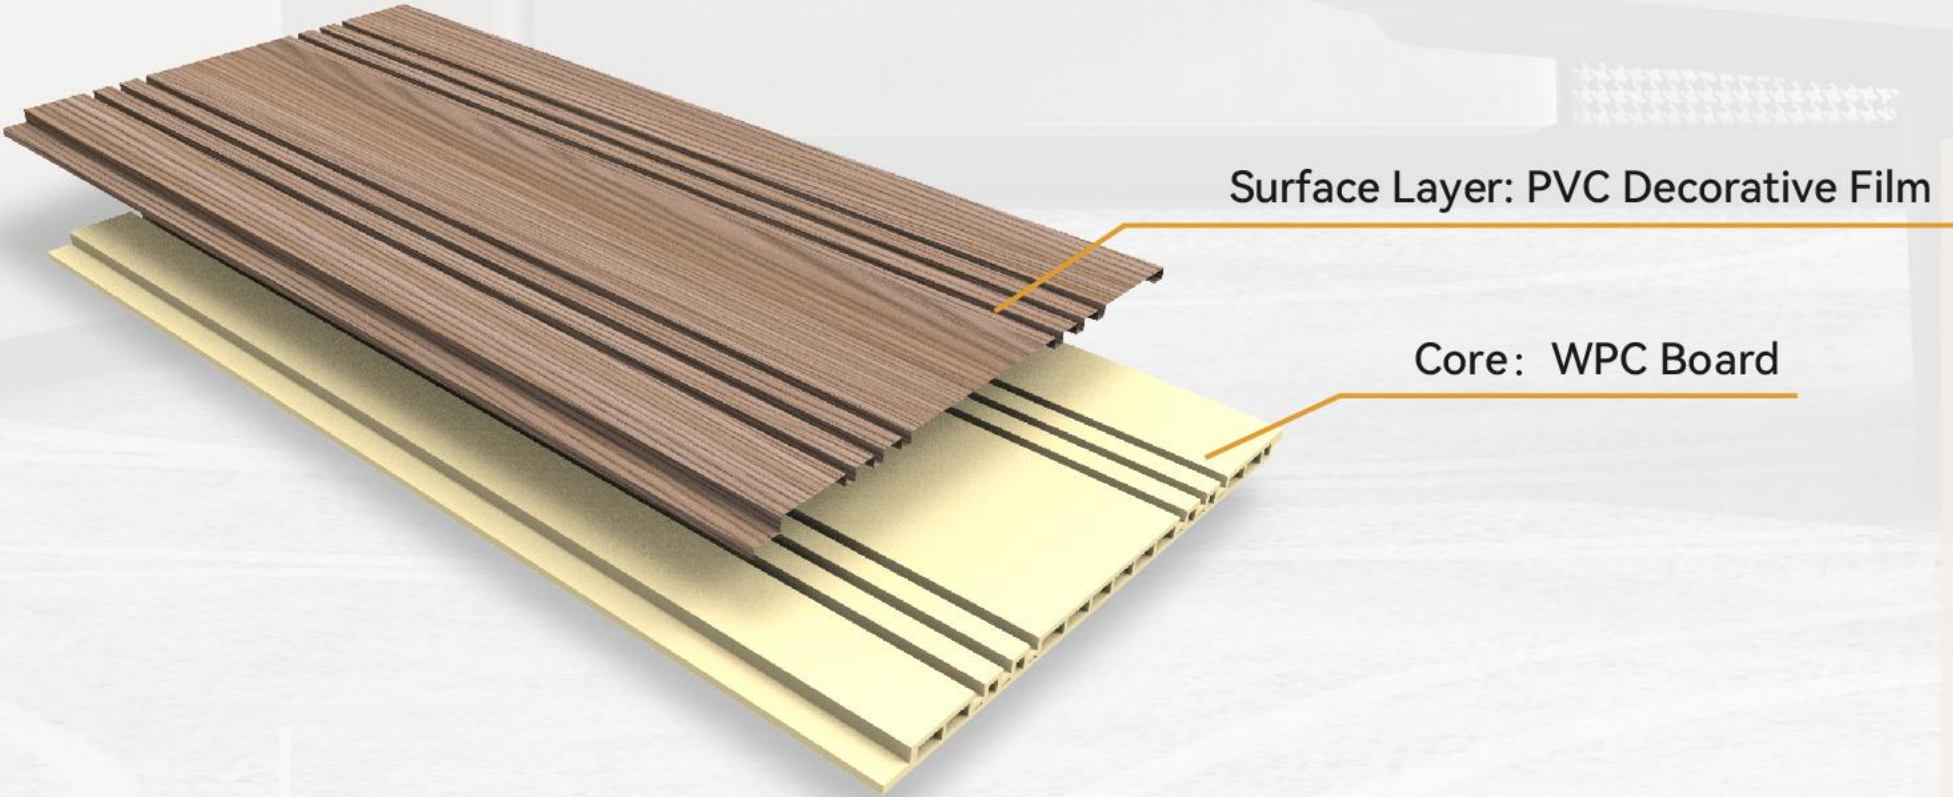

## EASY INSTALLATION

The wall panels are designed for simplicity, with quick installation that requires no specialized tools, saving time and cost.

**MATERIAL**

# FABRIC TEXTURE

The Intco WPC wall panel Fabric Series blends modern home design with traditional fabric textures, creating a rich and tactile wall effect. The delicate fabric patterns enhance the warmth of the space, while offering excellent durability and eco-friendly properties. This series is perfect for a variety of interior settings, from homes and offices to commercial spaces, adding a unique visual depth and comfortable atmosphere to any environment.

JF357

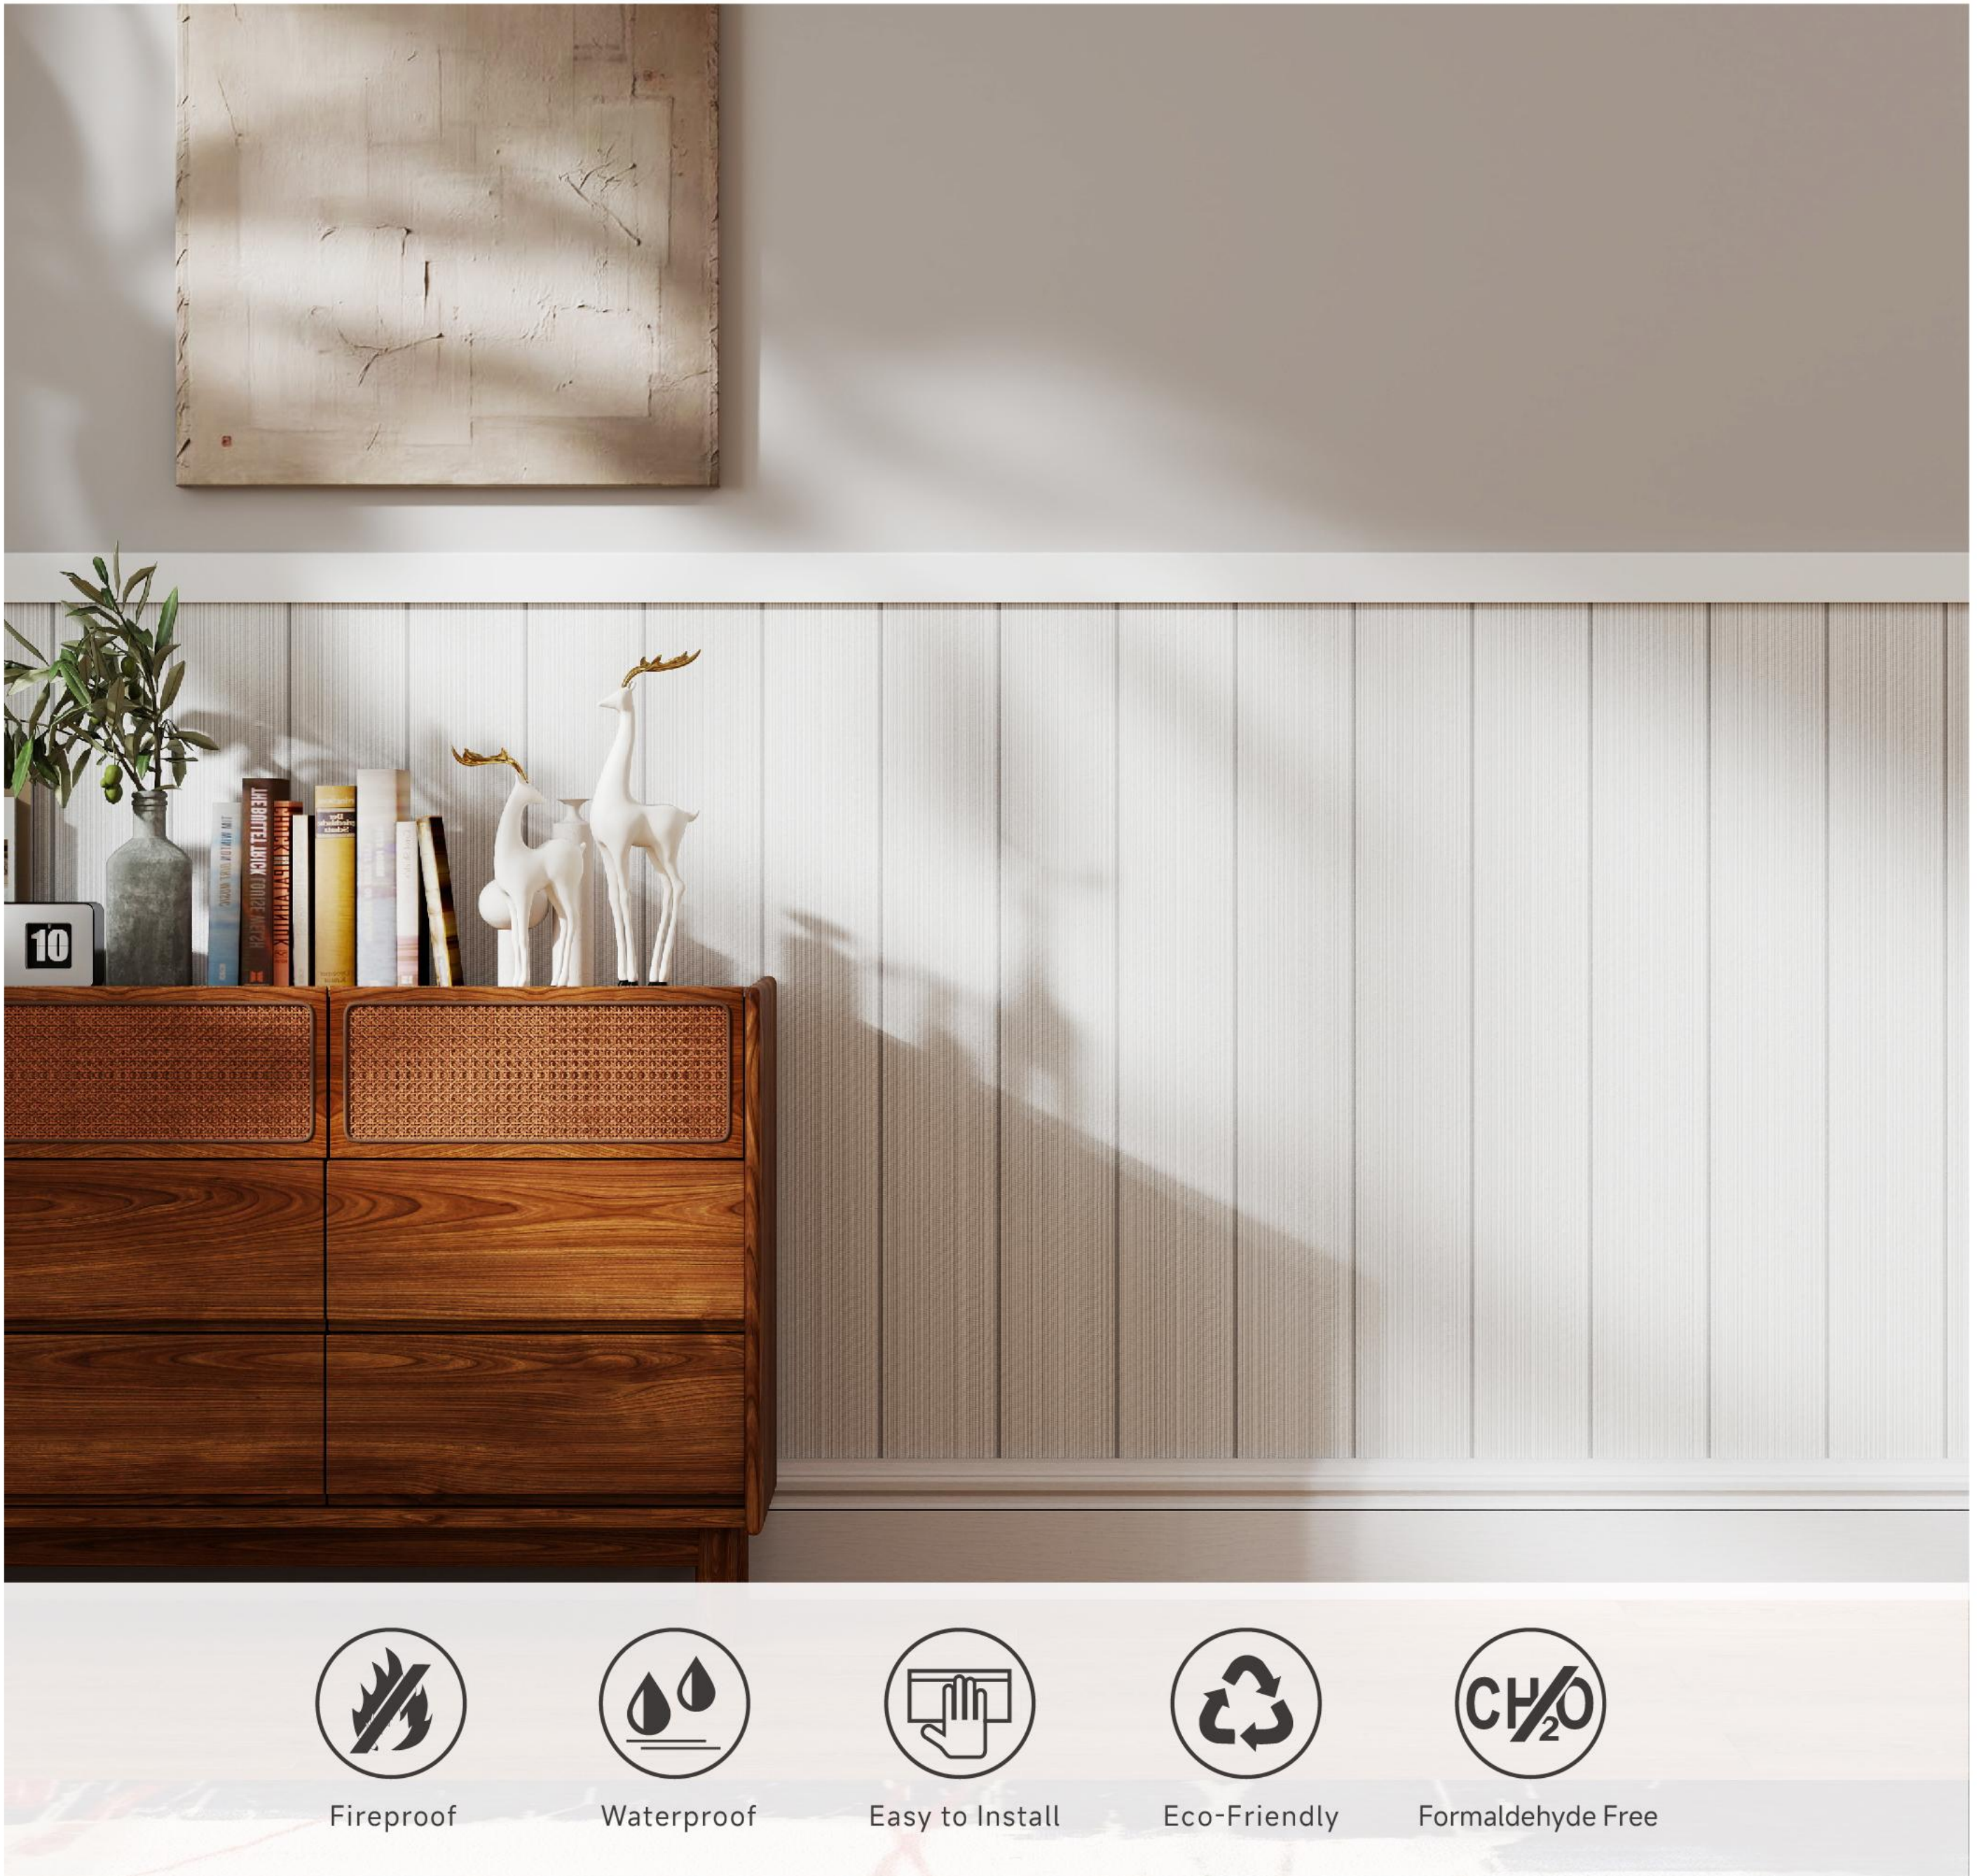

JF332

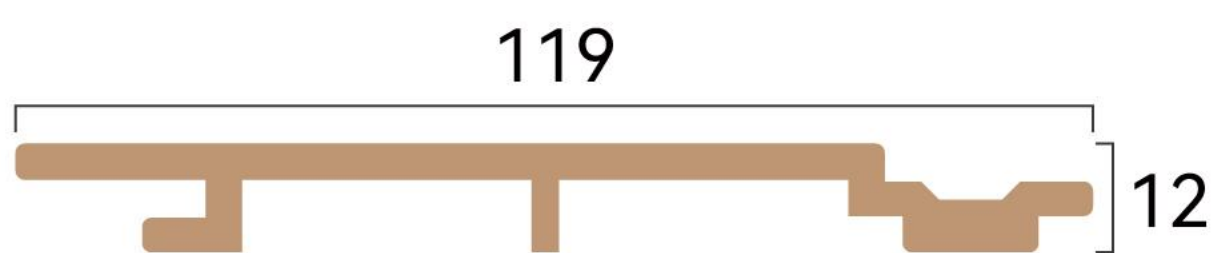

| Profile | Width | Height | Length | PCS/CTN |
|---------|-------|--------|--------|---------|
| JF357   | 119   | 12     | 2.4M   | 12      |
| JF332   | 158   | 15     | 2.4M   | 10      |

JF357#

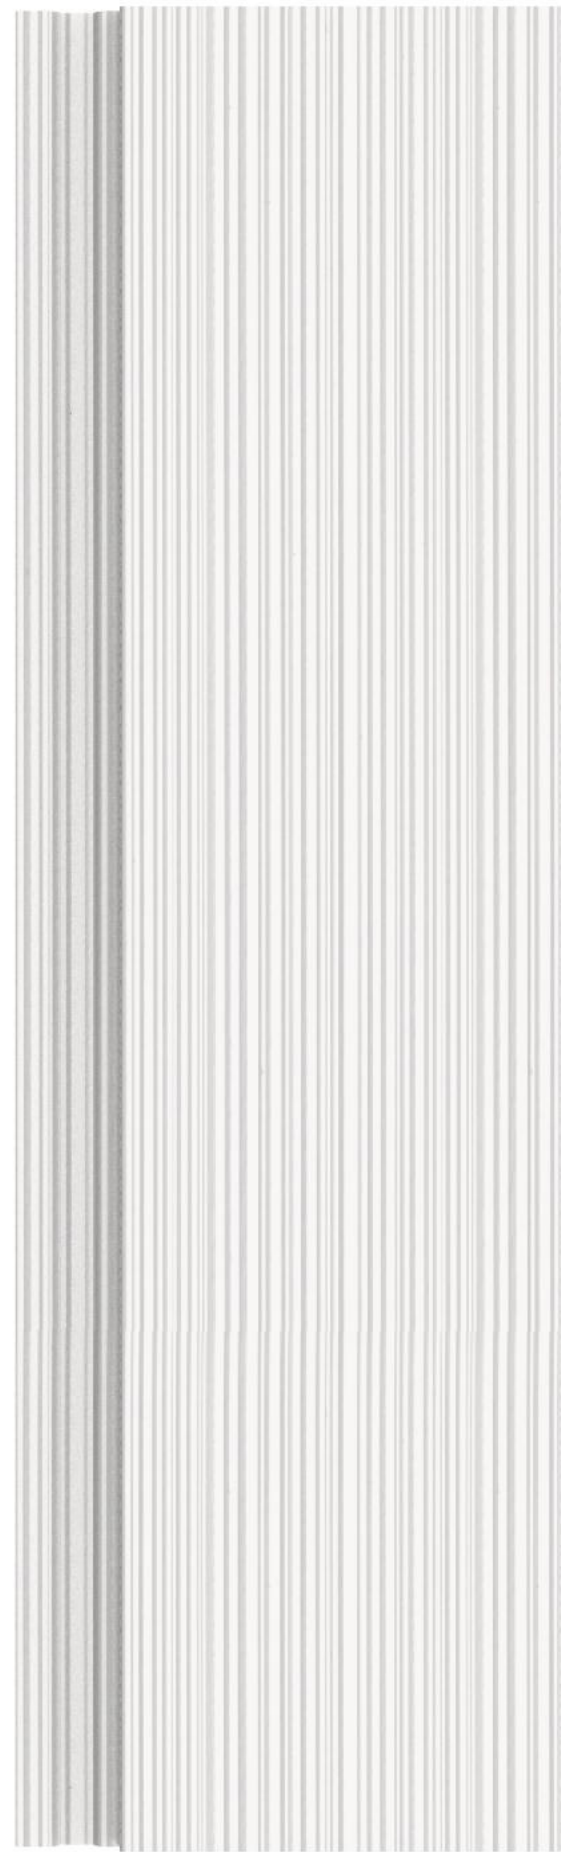

The fabric grain wall panel features a vertical arrangement with evenly spaced, elongated stripes, creating a smooth and continuous visual flow. Each stripe adds subtle depth and dimension, giving the entire wall surface a dynamic and textured appearance. The straight-line design enhances the modern aesthetic and visually expands the space, making it ideal for smaller areas.

JF332#

158

The Arched Fabric Grain Wall Panel Series features a smooth, curved design paired with intricate fabric-like textures, presenting a soft and natural aesthetic. Its unique arched shape breaks away from the rigidity of traditional wall designs, offering a more gentle visual effect. The fabric texture adds a smooth, warm quality to the surface, showcasing the natural feel of fabric and enhancing the refinement and depth of the space.

## SOLID COLOR

The Intco WPC Solid Color Grille Series features a minimalist grille design with a variety of solid color options, adding modernity and depth to any space. With excellent durability and eco-friendly properties, it is an ideal wall solution for both commercial and residential settings, creating a stylish yet functional atmosphere.

| Profile | Width | Height | Length | PCS/CTN |
|---------|-------|--------|--------|---------|
| JF326   | 200   | 11     | 2.4M   | 6       |

# WOOD GRAIN

The Intco WPC Wood Grain Grille Series combines natural wood textures with a modern grille design, bringing warmth and character to any space. The unique wood grain effect and grille structure enhance visual depth while creating a comfortable and modern atmosphere. Ideal for various indoor environments, this series offers both aesthetic appeal and durability, making it a perfect decorative choice.

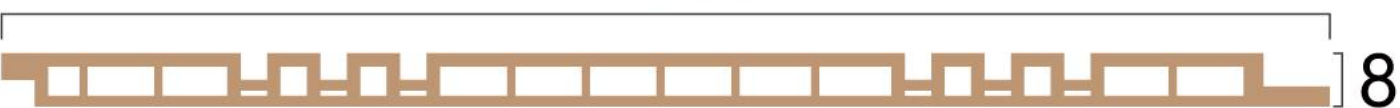

| Profile | Width | Height | Length | PCS/CTN |
|---------|-------|--------|--------|---------|
| JF329   | 200   | 8      | 2.4M   | 6       |
| JF356   | 200   | 8      | 2.4M   | 10      |
| JF351   | 172   | 18     | 2.4M   | 16      |
| JF353   | 158   | 13.5   | 2.4M   | 10      |
| JF357   | 119   | 12     | 2.4M   | 12      |

JF329#

200

This wood grain grille wall panel features a natural wood texture as its base, with delicate and layered patterns reminiscent of the rich grain found in premium forest timber. The vertical stripe design visually elongates the space, making it appear taller and more open, while creating a serene and comfortable ambiance that delivers a distinctive aesthetic appeal.

JF353#

This black groove paired with wood grain grille wall panels of varying sizes cleverly blends natural elements with modern design. Visually, the vertical arrangement stretches the height of the space, making the entire area appear taller and more open. The varying sizes of the wood grain grilles break away from the monotony and rigidity of traditional grilles, giving the panels a unique sense of rhythm and aesthetic flow.

# STONE TEXTURE

The Stone Grain Grille Series features authentic stone textures, showcasing natural rock patterns that create a unique atmosphere of luxury and elegance. Its minimalist grille design, perfectly paired with the stone grain, presents a distinctive single-matching aesthetic, adding both simplicity and depth to the space. Ideal for various modern interior styles, it enhances the overall design and texture of any space.

| Profile | Width | Height | Length | PCS/CTN |
|---------|-------|--------|--------|---------|
| JF359   | 203   | 10     | 2.4M   | 8       |

JF359#

203

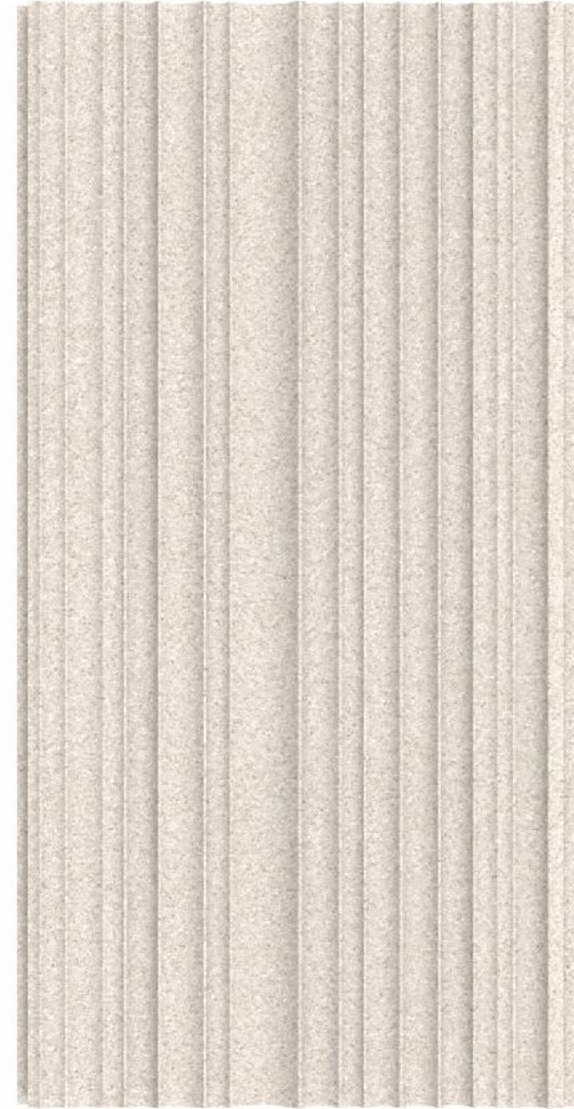

10

This stone grain wall panel is uniquely crafted, featuring a wave-like pattern with varying stripe sizes. It breaks away from the conventional uniformity, enriching the wall's texture and creating a dynamic sense of depth. Visually, it stretches and extends the space, making the interior appear more open and three-dimensional.

# METAL TEXTURE

The Metal Wall Panel Series features a modern metallic design, showcasing a smooth, shimmering surface that creates a strong visual impact. Its metallic texture, combined with advanced WPC material, not only presents a contemporary, stylish aesthetic but also offers excellent durability and eco-friendly properties.

JF332

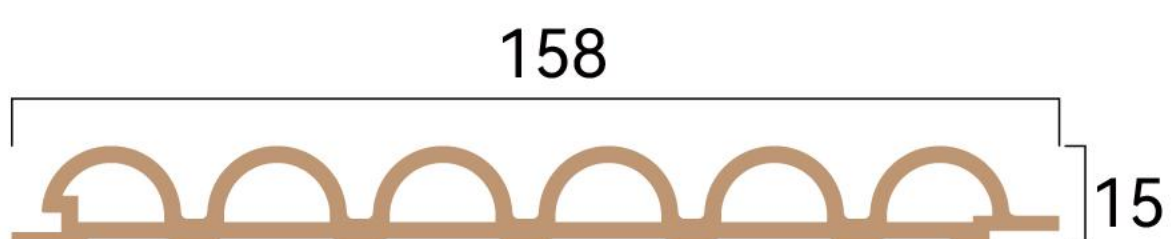

| Profile | Width | Height | Length | PCS/CTN |
|---------|-------|--------|--------|---------|
| JF332   | 158   | 15     | 2.4M   | 10      |

JF332#

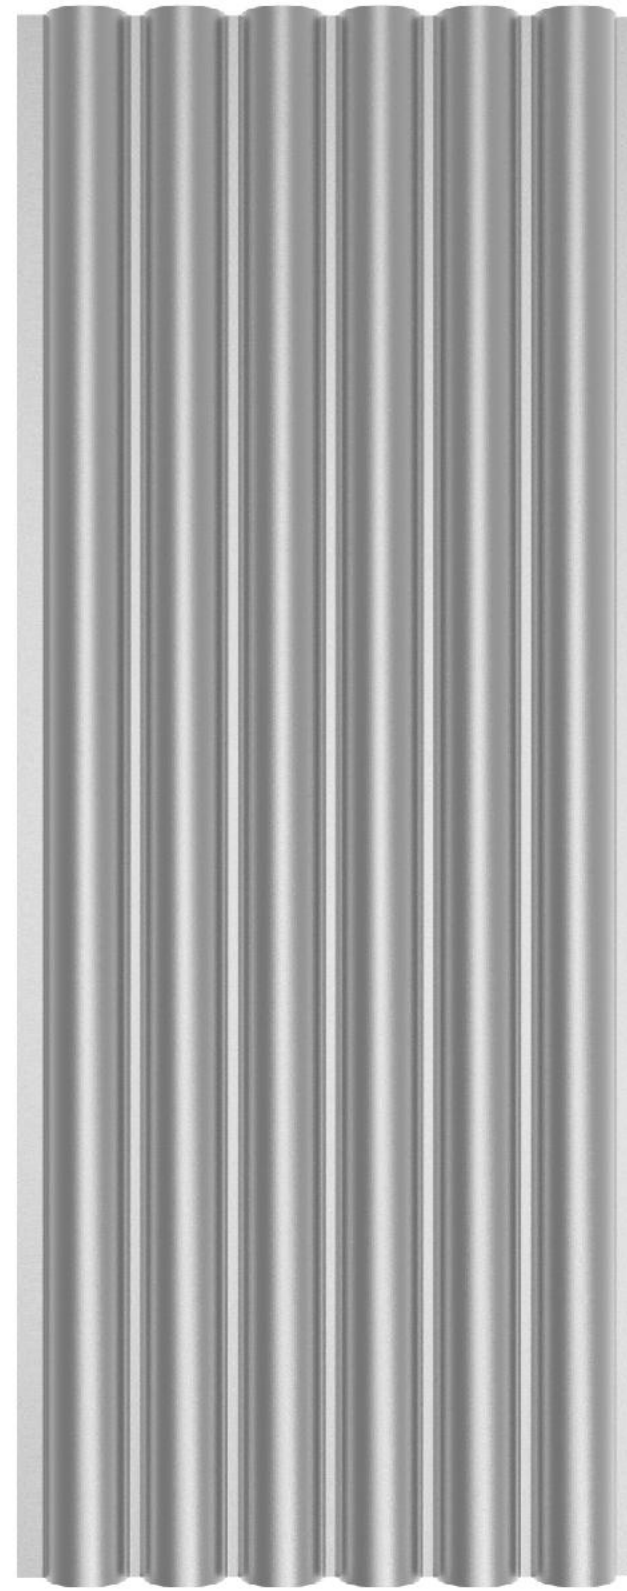

From a spatial perspective, the curved shape breaks the monotony of traditional straight lines, adding softness and movement to the wall, while cleverly softening the angles of the space. The metal material gives it a sleek, high-end shine, and under light, the interplay of light and shadow enhances its texture and depth.

## PREMIUM NEUTRAL SILICONE SEALANT

### DESCRIPTION

A one-component, neutral silicone sealant with excellent adhesion to most common wall panel substrates including wood, WPC, ceramic, stone, and glass.

### WHERE TO USE

Ideal for sealing panel joints, edge trims, windows, doors, and other decorative surface gaps. Best applied between 5°C-40°C.

- ✓ Easy to Use
- ✓ Excellent Adhesion
- ✓ Waterproofing

Heavy profiles

Interior

Porous Surface

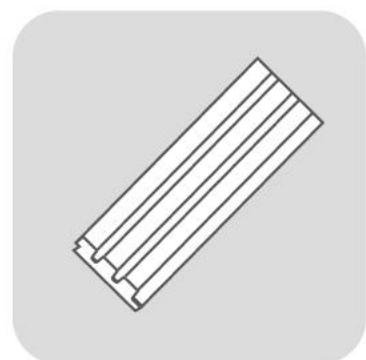

Dry Surface

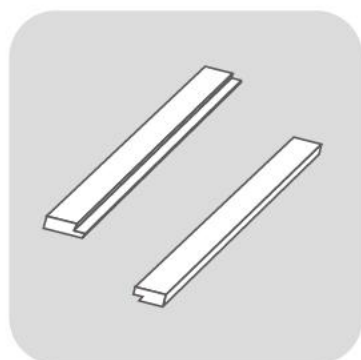

300ML

## TOOLS TO PREPARE

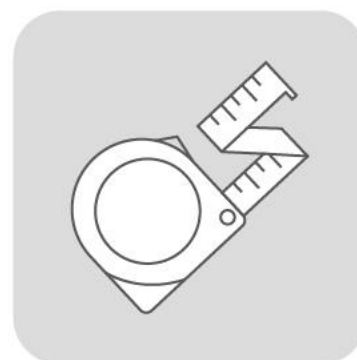

Wall Panel

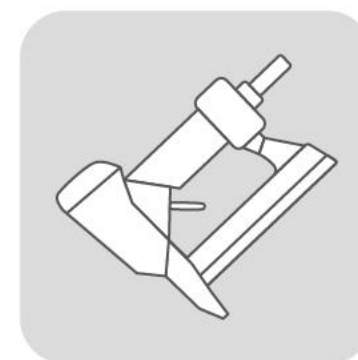

Coordinating Mouldings

Circular Saw

Tape Measure

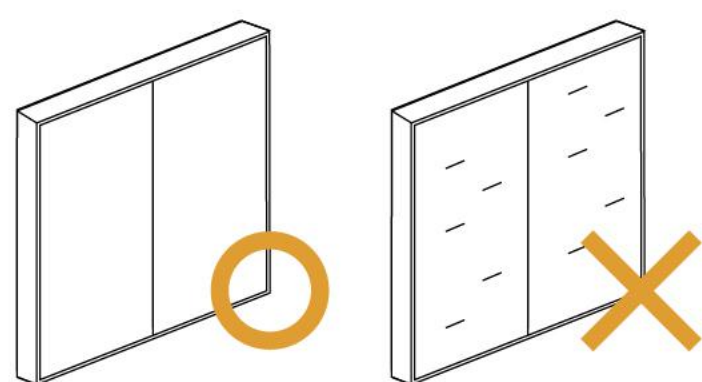

Steam Nailer

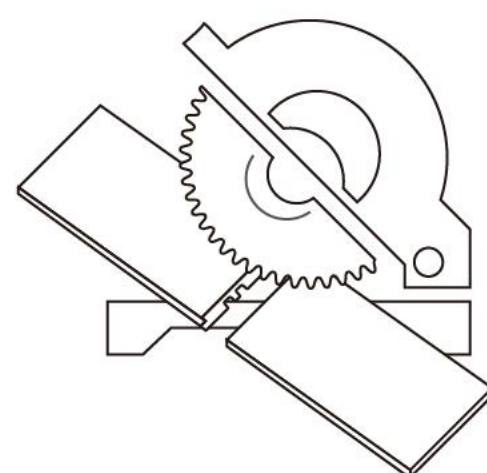

Nail Free Glue

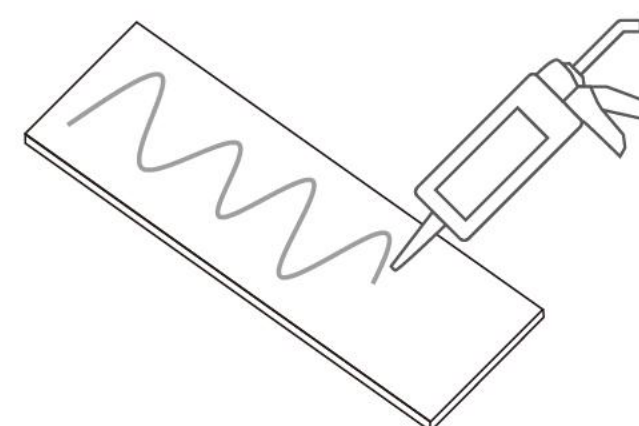

## INSTALLATION GUIDE : WPC 3D WALL PANEL

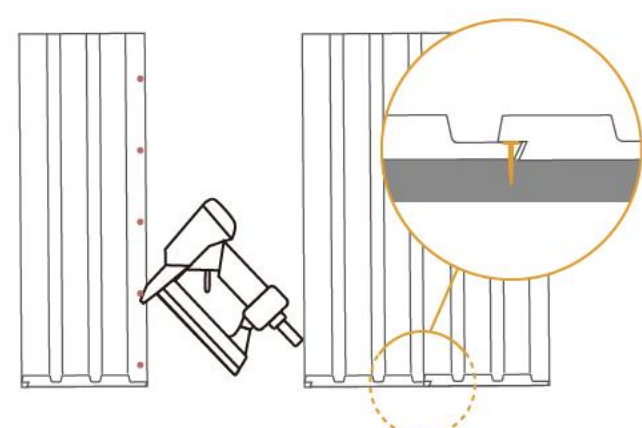

- 1** Prep-work with plaster board or plywood is recommended before the construction. Please remove wallpapers on the walls before the construction.

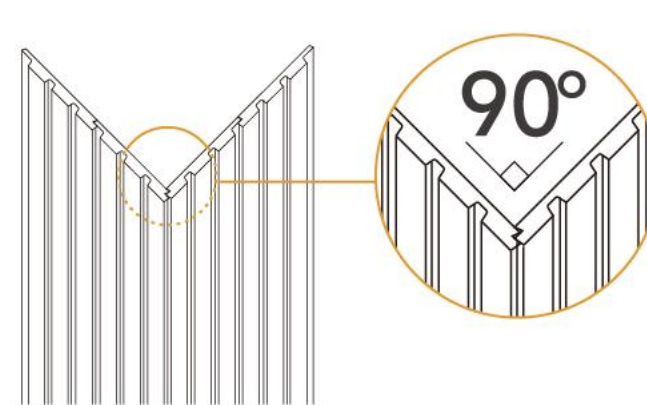

- 2** Circular saw can be used for cutting.

- 3** Apply nail free glue on the back of wall panel.

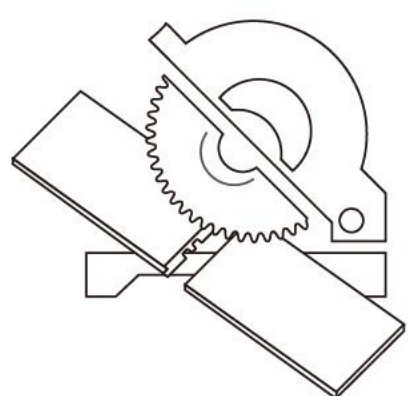

- 4** Wall panel can be installed in both horizontal and vertical direction. Apply air-tacker on the edge of the tongue to hide the pin-marks.

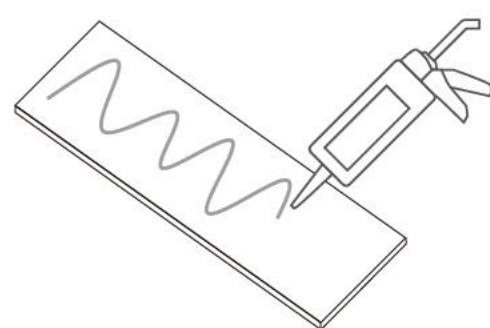

- 5** For corner, combine the two grooves.

## INSTALLATION GUIDE : FLAT WALL PANEL

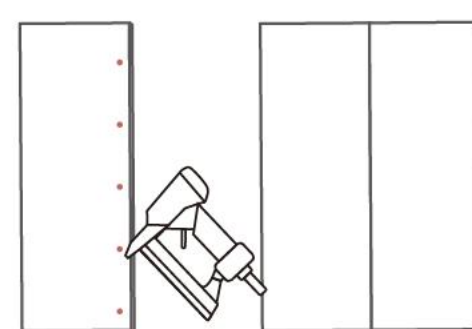

Use Electric Circular Saw to cut the wall panel according to the required size.

1

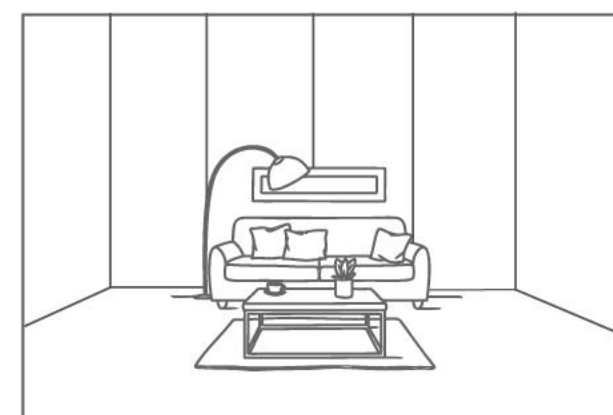

Put nail-free glue on the back of the wall panel.

2

Insert the metal trim into the groove from the side of the panel, and then nail the metal trim to the wall.

3

Complete the installation.

4
